Re: Ex Parte Notice
CC Docket 94-102
Further Notice of Proposed Rulemaking -Enhanced 911 Services

Dear Ms. Dortch:

On November 5, 2003, Gary Wallace, Vice President for External Affairs of ATX Technologies, Inc., and I met with Mr. Sam Feder, Legal Advisor to Commissioner Martin. During the meeting we advocated ATX's position in the above proceeding that there is no basis for any mandated interconnection for ATX's telematics services. We related that there is nothing in the record to show that 911 calls are handled other than efficiently and effectively. Moreover, the present infrastructure of the Public Safety Answering Points would not able to respond to such mandated interconnection.

Respectfully,
